Stevenson Heaping Ridicule Upon GOP For 'Ill-Fitting Self-Righteousness'

Corruption Said Treason

Dem Doubts Ike Would Write What He Speaks

DENVER, Sept. 6.—Adlai Stevenson is heaping coals of ridicule on the Republicans for "ill-fitting self-righteousness," and has pledged an all-out war against corruption in government.

The Democratic presidential candidate buried cutting words at the GOP on three major campaign issues in Denver Friday night.

He talked about "crooks in government," and kidded the Republicans for their slogan, "It's time for a change."

He was due in Kasson, Minn., Saturday afternoon to state his position on a farm program. His aides said that in this speech, as well, he would carry the fight to the Republicans, pointing the differences between their farm program and the Democrats'.

Up to this point in the campaign, he has taken little, if any, notice of Republican charges against the Democrats, nor of direct attacks on his own record in government.

BUT IN DENVER, the governor let fly with some sharp-pointed shafts at his opposition. And, although he spoke quietly and with restraint, he showed genuine feeling when he replied to some of the attacks on himself.

On the corruption issue, Stevenson said:

"Corruption in public office is treason to Democrats as well as Republicans."

"Any crooks I can find in the government will be exposed and punished as ruthlessly as I've done in Illinois, to Republicans and Democrats alike. And I think I know more about catching them than my opponent."

"I followed eight years of magnificent Republican rascality in Illinois. What's more, I used an ax for misconduct, and I've used it on my own party men without fear or favor or hesitation."

Stevenson then hit directly at Dwight Eisenhower, the GOP candidate. Heretofore, he has refrained from uttering any very personal remarks about his opponent. But he said he "resents" assertions against him, in connection with the corruption issue.

"I had not expected that from the general, and I will not repay him in kind," he told the audience, "but I would thank him to read more carefully what I don't believe he would write himself."

The inference was that the accusations against Stevenson had been put into Eisenhower's mouth by ghost writers.

IN HIS DISCUSSION of the Republican cry "time for a change," Stevenson, for the most part, simply ridiculed the opposition. He specializes in deadpan, delayed-action wisecracks and he was in good form Friday night. Roars of laughter thundered through the audience. Some samples:

"The Democrats are denounced for not wanting changes, and then for a subversive desire to change everything."

"I do not detect any roars of approval from the Republican Old Guard—the men who never want anything done for the first time."

"The Old Guard are those who are still fighting valiantly to keep us out of World War II."

"I shall not argue that it is necessarily fatal to change horses in mid-stream, but I doubt if it is wise to jump on a struggling two-headed elephant trying to swim in both directions in rough water."

CLEVELAND, Sept. 6.—A college president named Stevenson will lead a drive in Northern Ohio to get votes for a governor named Stevenson who wants to be President.

SALLY IS BELIEVED to have set a world record when she gave birth to 18 pigs on the farm of Clyde Griffin, near Owosso, Mich., but she played coy when a photographer tried to get her to pose with her babies. Deplorable State Of Drinking In France Told By Statistics

PARIS, Sept. 6.—The National Committee for Defense against Alcoholism has reeled off a set of sober facts on the deplorable state of drinking in France.

"It is even worse than in the United States," one speaker said. "Americans get drunk in a more spectacular fashion. It sometimes lasts for a week."

"But the mass of Americans drink less than the French. And the American worker drinks water."

The recital of what hard drinking does to the liver, to the general state of health and to the mind brought out these alcoholic facts:

Thirty per cent of all French women and 60 per cent of all French men hospitalized showed signs of alcoholic debility.

Eighty per cent of the psychiatric disorders and 40 per cent of the venereally diseased resulted from alcohol.

SIXTY PER CENT of the idiots and 40 per cent of the juvenile delinquents are children of alcoholics.

Twenty-five per cent of the labor accidents and 57 per cent of highway accidents are due to alcohol.

Forty-five per cent of the criminals and 95 per cent of the parents

who maltreat their children are alcoholics or descendants of same.

The figures were given out in connection with next week's 24th World Congress Against Alcoholism which is to be held here.

France, according to the statistics, is the most bibulous nation on earth. In terms of consumption the national average for each individual before the war was 35 liters of pure alcohol a year.

The United States, by comparison, had an average of eight liters. Italy was second with 18. England's average was six. A liter is a little more than a quart.

350 Pilgrims Said Dead In India Storm

NEW DELHI, Sept. 6.—India newspapers reported Saturday at least 350 pilgrims perished and many others are missing in a fierce storm that caught them on a trek toward the sacred seat of the Hindu gods on the high, glacial slopes of the Himalayas.

A spokesman for the Indian government said he doubted if an accurate count of the dead was possible, however, because the pilgrims were scattered over many miles of mountain trails when the post-monsoon snows overtook them.

They were struggling toward the headwater region of the holy Ganges River for the annual Mani Mahesh festival, which draws thousands of pilgrims. The storm whips across the highest passes, 18,000 feet above sea level, near Shangarajot, 65 miles from Chamab in Himachal Pradesh state.

One reason for the high death list was that most of those making the difficult journey are aged and crippled persons seeking a dip in the Ganges or other holy waters before dying.

For the Mani Mahesh festival, Hindus must make their way on foot over more than 200 miles of trails. The faithful believe there is no surer way to heaven than to die "where the gods live."

Mrs. America Contest Slated

ASBURY PARK, N. J., Sept. 6.—Married beauties who can whip up a tasty recipe or do a good job of darning socks are gathering here for Sunday's finals in the Mrs. America contest.

They come from 33 states and Hawaii to seek the title which carries with it some \$10,000 in prizes plus the Mrs. America trophy. Among the finalists competing is Mrs. Ohio, Lorraine Bond Breyer.

Special Crime Juries Dropped

Justice Department Chieftain Says Regular Panels Can Do Job

WASHINGTON, Sept. 6.—The Justice Department has dropped the plan to have special federal grand juries in all parts of the country sit once a year to survey local crime conditions.

Atty. Gen. James P. McGranery says it smacked of "showmanship" and that he believes regular grand juries that sit month-in and month-out can handle things just as well. He has disbanded the 13-man

"racket unit" which his predecessor, J. Howard McGrath, set up in the Justice Department last January to evaluate reports from the special juries and keep the program in motion.

McGranery made it clear he does not think much of the special grand jury idea, originated by McGrath and strongly recommended by the Kefauver Crime Investigating Committee.

Asserting that his faith lies with the regular juries to maintain federal law enforcement on a continuing basis, McGranery said:

"SHOWMANSHIP ought not to be any part of the administration of justice. Such administration calls for dignity and certainty."

As to the "racket unit," the attorney general said:

"I don't subscribe to the name 'racket unit.' Labels won't do the trick. We have lots of units in our criminal division, functioning effectively, and not known by Hollywood names."

In response to an inquiry, the attorney general said his position was the same as that of Federal District Judge Ben Moore of Southern West Virginia.

He refused to respond to McGrath's call for special juries in each of the 94 judicial districts.

Judge Moore, noting the McGrath request, told a regular jury panel that he expected "constant vigilance" in his district and said:

"A revival-meeting type of law enforcement may look well for a time, but its effect soon wears off."

"It is not the American way to carry on law enforcement through mass hysteria, or through newspaper propaganda, or through any kind of crusade."

Most Beautiful Blind Girl Sought

NEW YORK, Sept. 6.—They're seeking the most beautiful blind girl in the nation in a new contest sponsored by the Associated Blind, Inc.

The contest, which ends Nov. 1, is aimed at helping raise \$250,000 for the Associated blind to use in training blind people to become self-supporting. More than \$5,000 worth of merchandise have been offered as prizes.

Ohioan, 93, Flies Across Atlantic

LONDON, Sept. 6.—Charles Stevenson of Dresden, O., stepped from a Pan-American plane here Saturday and said the ideal age at which to fly the Atlantic is 93. Stevenson is 93.

He was met by his daughter, Mrs. Dorothy Lovell of Saltdan, Sussex, with whom he plans to make his home.

Georgia Peach Given Inside Track In Miss America Test

ATLANTIC CITY, Sept. 6.—One of 52 lovely girls, the pick of the country's beauty crop, will be crowned Miss America Saturday night, but a Georgia Peach was in a favored spot.

Brunette Neva Jane Langley, 19, of Macon, went up to the finish line with a double win in the preliminaries after her victory Friday in the bathing suit contest.

As Miss Georgia, she won a talent show Thursday night. She is 5-feet, 6½ inches tall, weighs 118 and measures 35 at the bust, 23 at the waist and 35 at the hips.

She was the only aspirant known to win two preliminary contests up to Saturday. Winners in the evening gown division are never announced but their points are computed in the finals.

It was to be a grueling day for the contestants in their quest for the title which carries with it a

COMPARISON OF TEETH of nine members of a family has convinced Dr. Bertram Kraus, physical anthropology expert at the University of Arizona, in Tucson, that Mrs. Mary McClelland, 24, of San Pablo, Calif., is the long missing daughter of Mr. and Mrs. Michael Moroney, of Chicago. Twenty-two years ago, two-year-old Mary Agnes Moroney, was kidnapped. Through recent news stories recalling the "unsolved" mystery, investigators came to believe that Mrs. McClelland was Mary Moroney. Scientific tests have tended to uphold this theory. As Mrs. McClelland returned to Chicago, Mrs. Moroney said she hoped that her "mother instinct" would tell her if she has found her daughter.

City Boys And Girls To Begin New School Year Here Monday

Circleville boys and girls will end their long summer vacations at 9 a. m. Monday when they report for the opening session of the 1952-53 school term.

Monday's first classes, however, will be brief, with dismissal for the day at noon. First full day of work is planned Tuesday.

Teachers in the city schools will have a full day of it Monday, however. The city teachers will meet in the afternoon to organize for the coming year.

Superintendent Frank Fischer said the new cafeteria located in the high school building will not be put into operation until Thursday. Mrs. Garold Crites will supervise the school lunch program here.

43 Injured As Bus Rams Rear Of Truck

BORDENTOWN, N. J., Sept. 6.—A night express bus running from New York to Washington collided with the rear of a truck Saturday on the New Jersey Turnpike, injuring all 41 aboard as well as two on the truck.

State police said the bus left the road after the collision, rolled down a 10-foot embankment and into a field. The front of the bus was rammed back to the third row of seats.

Twenty-two of the injured were hospitalized and at least one was listed as "very critical."

The Pennsylvania Greyhound was rolling along the turnpike five miles south of here.

Gilbert Tabler, 35, of Manington, W. Va., reported:

"The first thing I knew there was a terrible crash. My wife and I were thrown against the seats in front of us. Glass shattered all around. People screamed. Passengers tumbled into the aisle. I opened an emergency door and most of the passengers were able to walk out of it."

The bus driver, Joseph W. Fox, of Philadelphia, was among those injured and state police said he was not in condition to tell them what happened.

William P. James Jr., 41, of Congress, N. Y., was listed by state police as driver of the truck. He and his wife, May, were treated for minor injuries.

Singer Gertrude Lawrence Dies

NEW YORK, Sept. 6.—Musical comedy star Gertrude Lawrence, 51, died in New York hospital Saturday. She was admitted to the hospital Aug. 16 with yellow jaundice.

Miss Lawrence, English-born and star of the stage in both England and America for many years, was on leave from the starring role in the Rodgers and Hammerstein musical, "The King and I."

NATO 'Eventually' To Get A-Arms

PARIS, Sept. 6.—Gen. J. Lawton Collins, U. S. Army chief of staff, says North Atlantic treaty forces in Europe eventually will be supported by atomic weapons.

The general said discussions are underway for integrating weapons, including artillery and guided missiles, into the European forces. He added, however, such weapons "were not immediately available."

GOP Nominee Goes All-Out For Farm Vote

General's Plan Calls For Higher Rural Prices, Services

KASSON, Minn., Sept. 6.—Dwight D. Eisenhower made his bid for the important farm vote Saturday with a plan which he said would guarantee present price supports for another two years and then higher prices for the farmer.

He called for a wider range of farm crop supports including "greater protection" for producers of perishable products such as meat, milk, eggs, fruits and vegetables.

Eisenhower said the farmers return must be boosted from the present 90 per cent of parity to a full 100 per cent, but in ways that would "minimize government control and protect farmers' independence."

The GOP presidential nominee outlined what he called a "sound, farmer-run" plan while charging that the Democratic administration had tried to make the American farmer a "political captive."

"I firmly believe that agriculture is entitled to a fair, full share of the national income," Eisenhower said, "and a fair share is not merely 90 per cent of parity, but full parity."

PARITY REPRESENTS a fair return for the farmer in what he receives for his crop in relation to the things he must buy.

Eisenhower unveiled his new farm plan in a speech prepared for delivery at the national plowing contest here—only a short time before Democratic presidential nominee Adlai Stevenson was due to discuss his farm program.

Eisenhower's speech was first on the program and it was an open challenge to the Democrats for the farm vote which in 1948 was credited by many with giving President Truman his victory.

The basic farm commodities now under price supports are wheat, corn, rice, cotton, tobacco and peanuts. Eisenhower said supports should be extended to such crops as oats, barley, rye and soybeans.

He said some way must be found to give greater protection to the producers of perishable products such as meat, milk, eggs, fruits and vegetables—which are not now under price supports.

Then he called for expanded farm research, strengthening of farm cooperatives, up-to-date farm roads and "developing rural electrification and telephone service."

Eisenhower spread his farm proposals to public view for the first time after making these moves in Chicago Friday:

1. He said he would appoint a Negro to his cabinet or "to any place" in the government if he were elected President and if a Negro were the right man for the job.

2. He held out an olive branch to Sen. Robert A. Taft, whom he defeated for the GOP nomination, by saying: "I'll try to draw him onto my team not only as a consultant but as a man to lead a very important section of the fight."

Navy Finds No Trace Of 'Sub'

NEW YORK, Sept. 6.—Navy planes and boats were sent to Toms River, N. J., Friday to look for a reported unidentified submarine, but found no evidence of any undersea craft.

Announcing the search had been discontinued, a spokesman at Eastern Sea Headquarters here said:

"Immediate steps were taken to dispatch aircraft and surface ships to the scene of the reported sighting. No evidence was obtained which would indicate that the object sighted, insofar as known here, was a submarine."

Miss Lawrence, English-born and star of the stage in both England and America for many years, was on leave from the starring role in the Rodgers and Hammerstein musical, "The King and I."

UN Air Strike Levels Kored Army Center

SEOUL, Sept. 6.—United Nations fighter bombers Saturday smashed a big North Korean army headquarters in the second straight day of withering assault on North-east Korea.

At the eastern end of the battle front, U. S. 25th Division Infantrymen hammered back a Communist attack with fists and bayonets on Sandbag Hill, an Allied outpost.

U. S. Air Force, Marine and Australian planes hurled high explosives, rockets and machinegun bullets at the North Korean Fifth Corps headquarters near Kowon, the Air Force said. Pilots said they set 10 large fires, demolished 56 structures and damaged 20.

"The buildings just seemed to collapse like they were made of playing cards," said Capt. Felix Fowler of Cleveland.

Other fighter bombers and B-26 light bombers blasted a tungsten mine southwest of the Northeastern Korean port of Wonsan. Fighter bombers also pounded west coast and other battlefield targets.

Justice Department Chieftain Says Regular Panels Can Do Job

WASHINGTON, Sept. 6.—The Justice Department has dropped the plan to have special federal grand juries in all parts of the country sit once a year to survey local crime conditions.

Atty. Gen. James P. McGranery says it smacked of "showmanship" and that he believes regular grand juries that sit month-in and month-out can handle things just as well.

All City Water Shuts Off At Ten Tonight

Customers Warned To Save Supplies During Pipe Job

Customers of Circleville's water system have been warned the supply will be shut off for several hours starting at 10 p. m. Saturday.

City Water Manager Ervin Leist said the shutdown will be necessary while a new auxiliary water line under the Scioto river is being linked with the city's main 16-inch line.

The repair, being made at a point northwest of Circleville, will affect the water supply of all city residents.

Leist said it is impossible to tell definitely how long the water supply will be off but no prolonged shutdown is anticipated.

Most Beautiful Blind Girl Sought

NEW YORK, Sept. 6.—They're seeking the most beautiful blind girl in the nation in a new contest sponsored by the Associated Blind, Inc.

The contest, which ends Nov. 1, is aimed at helping raise \$250,000 for the Associated blind to use in training blind people to become self-supporting. More than \$5,000 worth of merchandise have been offered as prizes.

He was met by his daughter, Mrs. Dorothy Lovewell of Saldean, Sussex, with whom he plans to make his home.

THE PROGRAM called for them to leave their hotels at 9:45 a. m. for breakfast conferences with the judges. General rehearsal was set for noon and after sandwiches and milk came final rehearsal and general instructions.

By this time the 10 semifinalists have been selected but no announcement of their identities is made until the course of the evening performance.

At 6 p. m. the girls all have dinner at their hotels in formal gowns.

At 7 they leave for Convention Hall, report back stage at 7:15 and at 8 the finals begin. Crowning of Miss America is scheduled for 11:30 p. m.

Gwen Harmon of Birmingham, Ala., Jeanne Shores of Azusa, Cal., Jo Hoppe of Chicago, Iris Anne Fitch of Washington, and Joan Elizabeth Kayne of New York were single prelim winners.

City Boys And Girls To Begin New School Year Here Monday

Circleville boys and girls will end their long Summer vacations at 9 a. m. Monday when they report for the opening session of the 1952-53 school term.

Monday's first classes, however, will be brief, with dismissal for the day at noon. First full day of work is planned Tuesday.

Teachers in the city schools will have a full day of it Monday, however. The city teachers will meet in the afternoon to organize for the coming year.

Superintendent Frank Fischer said the new cafeteria located in the high school building will not be put into operation until Thursday. Mrs. Garold Crites will supervise the school lunch program here.

MANY CIRCLEVILLE parents have expressed concern as to which school their youngsters are to attend this year, since kindergarten has eliminated one grade in each of several buildings.

Superintendent Fischer said the problem will resolve itself with the announcement of the following schedule for elementary grade schools:

A t water — Kindergarten and grades 1, 2, 3 and 4.

Walnut street — Kindergarten and grades 1, 2, 3 and 4.

Franklin street — Kindergarten and grades 1, 2, 3, 4, 5 and 6.

High street — No kindergarten but grades 1, 2, 3, 4, 5 and 6.

Corwin street — No kindergarten but grades 1, 2, 3, 4, 5, 6, 7 and 8.

The superintendent said parents should send their youngsters to the nearest school which has the grade in which the youngster is to be enrolled.

For instance, a fifth grader living in the northend would have to enter High street school, the closest building offering grade five.

All seventh and eighth graders in the city will report to Corwin street school for classes.

Fischer added there will be no bus service this year in transporting youngsters to distant buildings.

A brand new building will be available for youngsters of the high school this year.

WORK HAS virtually all been completed upon the new industrial arts building, located immediately north of the main building.

And while they attend classes, high schoolers will be able to see work being completed on the new physical education building, located north of the main building facing Mill street.

Feature of the opening week of school, however, will be the opening of the 1952 Circleville Tiger football season Friday night against invading Holy Rosary of Columbus.

43 Injured As Bus Rams Rear Of Truck

BORDENTOWN, N. J., Sept. 6.—A night express bus running from New York to Washington collided with the rear of a truck Saturday on the New Jersey Turnpike, injuring all 41 aboard as well as two on the truck.

State police said the bus left the road after the collision, rolled down a 10-foot embankment and into a field. The front of the bus was rammed back to the third row of seats.

Twenty-two of the injured were hospitalized and at least one was listed as "very critical."

The Pennsylvania Greyhound was rolling along the turnpike five miles south of here.

Gilbert Tabler, 35, of Manington, W. Va., reported:

"The first thing I knew there was a terrible crash. My wife and I were thrown against the seats in front of us. Glass shattered all around. People screamed. Passengers tumbled into the aisle. I opened an emergency door and most of the passengers were able to walk out of it."

The bus driver, Joseph W. Fox, of Philadelphia, was among those injured and state police said he was not in condition to tell them what happened.

William P. James Jr., 41, of Congress, N. Y., was listed by state police as driver of the truck. He and his wife, May, were treated for minor injuries.

Announcing the search had been discontinued, a spokesman at Eastern Sea Headquarters here said:

"Immediate steps were taken to dispatch aircraft and surface ships to the scene of the reported sighting. No evidence was obtained which would indicate that the object sighted, insofar as known here, was a submarine."

NEW YORK, Sept. 6.—Navy planes and boats were sent to Toms River, N. J., Friday to look for a reported unidentified submarine, but found no evidence of any undersea craft.

NEW YORK, Sept. 6.—Musical comedy star Gertrude Lawrence, 51, died in New York hospital Saturday. She was admitted to the hospital Aug. 16 with yellow jaundice.

Miss Lawrence, English-born and star of the stage in both England and America for many years, was on leave from the starring role in the Rodgers and Hammerstein musical, "The King and I."

The general said discussions are underway for integrating weapons, including artillery and guided missiles, into the European forces. He added, however, such weapons "were not immediately available."

GOP Nominee Goes All-Out For Farm Vote

General's Plan Calls For Higher Rural Prices, Services

KASSON, Minn., Sept. 6.—Dwight D. Eisenhower made his bid for the important farm vote Saturday with a plan which he said would guarantee present price supports for another two years and then higher prices for the farmer.

He called for a wider range of farm crop supports including "greater protection" for producers of perishable products such as meat, milk, eggs, fruits and vegetables.

Eisenhower said the farmers' return must be boosted from the present 90 per cent of parity to a full 100 per cent, but in ways that would "minimize government control and protect farmers' independence."

The GOP presidential nominee outlined what he called a "sound, farmer-run" plan while charging that the Democratic administration had tried to make the American farmer a "political captive."

"I firmly believe that agriculture is entitled to a fair, full share of the national income," Eisenhower said, "and a fair share is not merely 90 per cent of parity, but full parity."

PARITY REPRESENTS a fair return for the farmer in what he receives for his crop in relation to the things he must buy.

Eisenhower unveiled his new farm plan in a speech prepared for delivery at the national plowing contest here—only a short time before Democratic presidential nominee Adlai Stevenson was due to discuss his farm program.

Eisenhower's speech was first on the program and it was an open challenge to the Democrats for the farm vote which in 1948 was credited by many with giving President Truman his victory.

The basic farm commodities now under price supports are wheat, corn, rice, cotton, tobacco and peanuts. Eisenhower said supports should be extended to such crops as oats, barley, rye and soybeans.

He said some way must be found to give greater protection to the producers of perishable products such as meat, milk, eggs, fruits and vegetables—which are not now under price supports.

Then he called for expanded farm research, strengthening of farm cooperatives, up-to-date farm roads and "developing rural electrification and telephone service."

Eisenhower spread his farm proposals to public view for the first time after making these moves in Chicago Friday:

1. He said he would appoint a Negro to his cabinet or "to any place" in the government if he were elected President and if a Negro were the right man for the job.

2. He held out an olive branch to Sen. Robert A. Taft, whom he defeated for the GOP nomination, by saying: "I'll try to draw him onto my team not only as a consultant but as a man to lead a very important section of the fight."

Strange And 'Different' Lights Reported In Sky North Of City

Strange lights in the sky have "convinced" Mrs. Gail Wolfe of 140 Pleasant street that there's something "really serious" in the stories of flying saucers and the like.

The unusual streaks and flashes were seen Friday night at approximately 9:05 while Mr. and Mrs. Wolfe and their two sons, Gail Jr. and Dale Eugene, were motoring homeward on the Kingston pike.

"We were just about a half-mile from the city limits," Mrs. Wolfe said, "when we suddenly saw these streaks and flashes north of us."

"Yes, we were looking up in the general direction of Lockbourne, but it certainly wasn't a plane we saw and the lights were different from anything we've ever seen before."

firm was invited to survey the city water system and make recommendations.

INSTALLATION of a new pumping unit and a new chlorinator, already completed, were also part of the modernization plans suggested by the survey concern.

"We have men and equipment for this sort of work on a smaller scale," Leist added, "but for a job of this size we had to call upon John Cook, superintendent of the distribution section of the Columbus water department."

"Cook will bring his men and equipment here, and we'll shut off Circleville's water supply at 10 p. m. tonight."

"We don't expect any big problems, but we can't tell in advance. Probably our biggest job will be to drain the connecting section of the main 16-inch line. It has to be done before the new unit can be set in by crane and joined up."

Leist explained original plans called for a water shutoff at midnight, but it had to be moved up two hours to make use of the men and equipment available in Columbus.

The water manager was especially anxious that the word be spread through Circleville so that nobody will be caught without a reserve water supply. He was considering a request to have the warning relayed over Columbus television and radio stations.

The 12-inch auxiliary line will be of cast iron, which Leist said has proven far more durable than steel for that purpose.

Paris, France, has been using large cast iron water main for 250 years, he pointed out.

And when Circleville's main water line—made of cast iron—was uncovered recently to begin the current project, it was found in very good condition.

Child Problems and Solutions

By GARRY CLEVELAND MYERS, PhD

Among the pleasures many grandparents have, especially those living in hamlets or on farms, is having their grandchildren visit them for the entire summer. I know from experience.

But I also know from information I have picked up since my boyhood, that a great many grandparents are imposed upon by the parents of their grandchildren, especially when the children over six are left with the grandparents for several weeks, or the entire summer. In such instances, the young parents merely park the children there.

Even when the children left have been pretty well disciplined at home, they may not obey the grandparents, who usually can't manage these children as skillfully as the parents can.

Perhaps the most frequent annoyance to the gracious grandparents is the disinclination of the youngster left with them to share in the jobs about the visited home; and there may be more of such jobs than there were in the grandchildren's own home.

Indeed, few of these grandchildren have learned in their homes to look after their own things and to share in the home drudgeries. The average child is growing up to expect his mother to be his slave.

Naturally he expects his grandmother, when he's in her home, to be his slave also. Not only is she

aware of the work the grandchild's stay causes her, but irked still more at his unwillingness or refusal even to share in the added work his visit involves.

FURTHERMORE, the grandmother may be hurt by the grandchild's ingratitude for all her kindness to him. What may be worse, is the ingratitude, oftentimes, of the son or daughter whose youngster is parked with the grandparents.

But such injustice to the grandparents is not the biggest issue. Having no practice at sharing in the drudgeries of his hostess and host, but practice at being a mere parasite, he is losing morally. He is not growing in responsibility, not growing to be a useful person or good citizen.

The parents of a child over six "parked" with the grandparents should make clear to him and the grandparents that they expect him to perform certain regular duties at the visited home. Of course, the parents can't enforce such by mere suggestions or commands.

Unless the child has learned in his own home to share in such responsibilities, he is hardly likely to do so at the grandparents'.

Young parents: So train your child at home in sharing in the everyday chores there that he may be prepared when staying with his grandparents to do likewise.

Q. Our daughter, three, has very decided choices of dresses she wants to wear. Shouldn't she learn to accept the dress I consider best for her?

A. As she must have several dresses available over any short period, why not let her choose from among them, within reason, the one she prefers?

Sabrejets Crash Air Show Gate

FARNSBOROUGH, Sept. 6.—Ten mysterious American-made Sabrejets gate-crashed Britain's exclusive annual air show here Friday and stole the show with a 20-minute flying exhibition. Then they scooted off to an unknown air base somewhere in Britain.

The uninvited, unidentified jet fighters came whistling over Farnborough Airfield at about 10,000 feet and thrilled spectators with an unprogrammed display of close formation flying. The poachers blandly ignored angry radio messages from British officials.

Supply Empire For Air Force Is Abandoned

WASHINGTON, Sept. 6.—A House watchdog subcommittee reported Saturday it has won a year-old fight to prevent the Air Force from establishing a separate multi-billion dollar "supply empire."

The result, said Chairman Bonner (D-NC), will divert hundreds of millions of dollars that would be spent for overhead to vitally needed planes and technical equipment.

Bonner said top officials had assured his expenditures subcommittee the Air Force would abandon plans to set up its own world-wide

supply system for clothing, office equipment and other items used commonly with other services.

Instead, these items will continue to be handled by the General Services, he said.

The subcommittee found duplicating Army and Navy facilities at Oakland, Calif., for manufacturing thousands of pairs of spectacles for service personnel.

It also concluded the taxpayers are spending millions of extra dollars for servicemen's coffee because the Army and Navy haul their own supplies cross country instead of using each other's roasting plants in main areas.

A "great duplication" of common items was discovered in large inventories at neighboring Army and Navy warehouses in Ogden. The subcommittee approved a test being conducted there to streamline paper work and reduce stock levels.

Supply Empire For Air Force Is Abandoned

WASHINGTON, Sept. 6 — (AP)—A House watchdog subcommittee reported Saturday it has won a year-old fight to prevent the Air Force from establishing a separate multi-billion dollar "supply empire."

The result, said Chairman Bonner (D-NC), will divert hundreds of millions of dollars that would be spent for overhead to vitally needed planes and technical equipment.

Bonner said top officials had assured his expenditures subcommittee the Air Force would abandon plans to set up its own world-wide

supply system for clothing, office equipment and other items used commonly with other services.

Instead, these items will continue to be handled by the General Service, he said.

The subcommittee found duplicating Army and Navy facilities at Oakland, Calif., for manufacturing thousands of pairs of spectacles for service personnel.

It also concluded the taxpayers are spending millions of extra dollars for servicemen's coffee because the Army and Navy haul their own supplies cross country instead of using each other's roasting plants in main areas.

A "great duplication" of common items was discovered in large inventories at neighboring Army and Navy warehouses in Ogden. The subcommittee approved a test being conducted there to streamline paper work and reduce stock levels.

Character Theme Planned For 1st EUB Church

Using a scripture from Acts 11:26, the Rev. Carl L. Wilson will speak in First Evangelical United Brethren church at 9:30 a. m. Sunday from a theme, "The Christian Character."

Developing this message from the conviction that Christianity is a personal thing which has its source in the heart and radiates through the life and character of humanity, the Rev. Mr. Wilson says: "The Christian character involves a cordial belief in the person and work of Christ; an active participation in the nature of Christ; the possession of the spirit of Jesus; the following of His example; the delight in divine ordinances and a concern for the glory of Christ."

"When these have been accomplished in the experience of man, the excellency of the Christian's character is one of superlative dignity; of solid enjoyment; of extensive usefulness and of prospective and eternal glory. The Christian Character resolves itself into letting believers rejoice in their high and celestial calling, always laboring to exalt the Savior, exhibiting the power of His grace in their lives, and exerting an interest in winning others to the blessed Lord."

Mrs. Verneal Thomas will open the service with an organ prelude, "Cantilene," followed by the Fidelity Chorus processional hymn, "Holy, Holy, Holy!" Other numbers by Mrs. Thomas will be "In Remembrance" and "March of the Shepherds."

The congregation will sing a hymn entitled "My Faith Looks Up to Thee," after which the scriptural exhortation is to be read by Church School Superintendent Edwin Richardson.

Fidelity Chorus Mixed Quartette consisting of David Steele, Ruth Styers, Elliott Hawkes and Phyllis Hawkes, will sing an anthem, "Speak, My Lord."

Church school classes will study a Bible lesson, "A Humble and Great-Hearted Leader."

School Theme To Be Heard By Lutherans

Back to school is paramount in the minds of all this week. Knowing this and also realizing that going back to school presents new problems, new interests, and new temptations, the Rev. George Troutman will speak to the youth on the theme "Remain Faithful to Christ" Sunday in Trinity Lutheran church.

In developing this theme, the Rev. Mr. Troutman will counsel the youth, admonishing and advising them. Text for the sermon will be II Timothy, 3:14-17.

In connection with the regular morning worship service there will also be the commissioning service for Jacques Schweiss, the church's new intern.

Schweiss has completed two of the required three years for ordination in the American Lutheran church in Capital Theological Seminary, Columbus. His home is in Fullerton, Calif., where he graduated from high school and junior college.

He is also a graduate of Capital university and the Lutheran Bible Institute. Schweiss is married and has two boys, Paul, 2, and Erik, two months.

Mrs. Schweiss, Solveig, is from Seattle, Wash., and is also a graduate of the Lutheran Bible Institute. The Schweiss family now lives at 324 East Franklin street, residence of former intern Fred MacLean.

Nazarenes To Hear Guest Speaker Sunday

The Rev. R. V. Clay of Toledo will be guest speaker Sunday during worship services in the Church of the Nazarene. The guest speaker, now conducting a special revival series in the church, is a brother of the pastor, the Rev. D. E. Clay.

Adult choir will sing "Everything Is Changed," during the service, while Sunday school classes will meet at 9:30 a. m. to study a lesson entitled "David, a Humble and Greathearted Leader."

Young people of the church will meet at 6:45 p. m., followed by an evening service at 7:30 p. m. with the Rev. R. V. Clay speaking.

Boy Scout Troop 121 of Calvary EUB church will meet in the church at 7 p. m. Monday. With this meeting, the troop renews its Fall activities, under the leadership of a new Scoutmaster.

Regular quarterly meeting of the Women's Association of the Presbyterian church will be held in the social rooms of the church at 2:30 p. m. Friday. Group "F" will provide the program and Group "E" will serve as hostesses. Sewing projects will be displayed at this meeting.

WSWS of Calvary Evangelical United Brethren church will meet at 7:30 p. m. Tuesday in the home of Mrs. J. S. Shasteen, 617 Elm avenue. Mrs. Talmer Wise is the program leader and Mrs. Andrew Goeller the social leader.

Midweek prayer service of Calvary EUB church will be held in the church at 7:30 p. m. Wednesday. The second in a series of studies on the life of Paul will be given, with the aid of film strip pictures.

Presbyterian youth delegates to the National Assembly planning committee will arrive in Circleville next Saturday to plan for the National Assembly of Westminster Fellowship, which will be held in Grinnell College, Grinnell, Ia., in 1954.

The committee consists of two members of the National Board of Christian Education (Presbyterian): the Rev. Hal Viehman, Philadelphia; the Rev. Maurice Bone, associate director of young people's work; and six youth delegates, Stan Schmidt of Sioux City, Ia., Don Mac Innes of Cheko, Calif., Rocelyn Roney of Lawrence, Kansas, Dick Celender of La Grange, Ill., Bruce Rigdon of Oxford, Penn., and Anne Downing of Circleville. They will meet in the Presbyterian church Sunday and Monday.

Luther League of Trinity Lutheran church will meet at 6 p. m. Sunday in the parish house and then drive to the home of Dottie and David List for an outdoor meeting. The devotional service theme will be "Back to School." A few introductory remarks will be presented by Jacques Schweiss, new student pastor. Refreshments and a recreational period will follow.

Mrs. V. D. Kerns will present a topic, "Know the Scriptures," to the Von Bora Missionary Society at 7:30 p. m. Monday in the parish house. A playlet will be presented following the topic.

Junior Choir of Trinity Lutheran church will meet in the church

auditorium for a rehearsal at 7:30 p. m. Wednesday.

Ladies' Aid of Trinity Lutheran church will meet in the parish house at 7:30 p. m. Wednesday. Mrs. Frank Turner will direct the program.

Senior Choir of Trinity Lutheran church will practice in the church auditorium at 7:30 p. m. Friday.

Catechetical class for the coming year will be organized in Trinity Lutheran church this Saturday in the parish house for all children 11 to 14.

Members and friends of First Evangelical United Brethren church will meet at 6:45 p. m. Monday in the service center for a "carry-in" luncheon and reception for the Rev. and Mrs. Carl L. Wilson. The pastor was returned here for the eighth year during the recent Ohio Southeast Conference. Arrangements are to be supervised by Adult Director Mrs. Paul Dawson. Mrs. Myrtle Trimmer will direct the program. Persons attending are to bring sandwiches, a covered dish and table service. Beverage will be furnished.

Second annual "Men-Boys" banquet, sponsored by the Brotherhood of First Evangelical United Brethren church, will be held at 6:30 p. m. Tuesday in the service center. No tickets will be sold but a free will offering will be received to pay expenses. All men and boys of the church are invited.

Wednesday night activities in First Evangelical United Brethren church calls for Fidelity Chorus rehearsal at 6:30 p. m.; prayer and Bible study at 7:30 p. m.; and church choir rehearsal at 7:45 p. m.

Merry Makers Class of First Evangelical United Brethren church will hold an ice cream festival on the parsonage lawn from 7 p. m. until 9 p. m. Thursday. Proceeds go to the landscaping of the service center.

The Outreach of the Church" is the sermon theme to be presented by the Rev. Robert B. Weaver Sunday in First Methodist church.

The Rev. Mr. Weaver will present the emphasis of the state-wide Evangelistic Program for this year and show the importance of the laymen and the minister in this vital church program.

Mrs. Ervin Leist will present the morning's musical meditations with the playing of "Conzonetta in D," "Penitence" and "Chorus from Maritana."

Special music will be presented in the service by a trio consisting of Mrs. Norma Graham, soprano; Miss Beverly Reid, alto; and Dr. W. Lloyd Sprouse, baritone. Their selection is "God is a Spirit."

Character Theme Planned For 1st EUB Church

Using a scripture from Acts 11:26, the Rev. Carl L. Wilson will speak in First Evangelical United Brethren church at 9:30 a. m. Sunday from a theme, "The Christian Character."

Developing this message from the conviction that Christianity is a personal thing which has its source in the heart and radiates through the life and character of humanity, the Rev. Mr. Wilson says: "The Christian character involves a cordial belief in the person and work of Christ; an active participation in the nature of Christ; the possession of the spirit of Jesus; the following of His example; the delight in divine ordinances and a concern for the glory of Christ."

"When these have been accomplished in the experience of man, the excellency of the Christian's character is one of superlative dignity; of solid enjoyment, of extensive usefulness and of prospective and eternal glory. The Christian Character resolves itself into letting believers rejoice in their high and celestial calling, always laboring to exalt the Savior, exhibiting the power of His grace in their lives, and exerting an interest in winning others to the blessed Lord."

Mrs. Verneal Thomas will open the service with an organ prelude, "Cantilene," followed by the Fidelity Chorus processional hymn, "Holy, Holy, Holy!" Other numbers by Mrs. Thomas will be "In Remembrance" and "March of the Shepherds."

The congregation will sing a hymn entitled "My Faith Looks Up to Thee," after which the scriptural exhortation is to be read by Church School Superintendent Edwin Richardson.

School Theme To Be Heard By Lutherans

Back to school is paramount in the minds of all this week. Knowing this and also realizing that going back to school presents new problems, new interests, and new temptations, the Rev. George Troutman will speak to the youth on the theme "Remain Faithful to Christ" Sunday in Trinity Lutheran church.

In developing this theme, the Rev. Mr. Troutman will counsel the youth, admonishing and advising them. Text for the sermon will be II Timothy, 3:14-17.

In connection with the regular morning worship service there will also be the commissioning service for Jacques Schweiss, the church's new intern.

Schweiss has completed two of the required three years for ordination in the American Lutheran church in Capital Theological Seminary, Columbus. His home is in Fullerton, Calif., where he graduated from high school and junior college.

He is also a graduate of Capital university and the Lutheran Bible Institute. Schweiss is married and has two boys, Paul, 2, and Erik, two months.

Mrs. Schweiss, Solveig, is from Seattle, Wash., and is also a graduate of the Lutheran Bible Institute. The Schweiss family now lives at 324 East Franklin street, residence of former intern Fred MacLean.

Bible Words To Live By

My favorite Bible verse is JOHN 3:16.

"For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

My reasons for thinking of this as my favorite verse are as follows:

First of all, it sums up the attitude of God the Creator as one who is interested in the things He has created, exhibiting a kindly and loving spirit toward mankind as a part of His creation. This benevolence of God has been exhibited through many centuries, and is one of the stabilizing aspects of the Christian faith.

It also points the way by which man can approach this God in whom we believe. Through the person of Jesus Christ we may come into close association with God, and thus be redeemed from destruction and placed upon the way of eternal life.

ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Buescher

David's great sin was when he took Uriah's wife, Bathsheba, and plotted her husband's death. Nathan, the prophet, aroused David's conscience by telling him a parable of a rich man stealing a poor man's only treasure, and when David grew indignant at the rich man, Nathan said thou art the man.

Realizing his sin, David repented. Jehovah forgave him, but promised punishment. Then Absalom, his son, conspired to overthrow his father, and usurp the throne. David fled, and a man of Saul's house met his party, threw stones at the king and cursed him. David would not allow him to be killed.

Absalom's rebellion was quelled and David returned to Jerusalem. When word was brought the king that Absalom had been slain by David's loyal followers, the king mourned greatly, and going to his chamber he cried, "O my son Absalom, my son, my son Absalom, would God that I had died with thee!"

Commanded to build an altar to Jehovah on the threshing floor of Araunah, the Jebusite, David went thither. Araunah wished to give all things needful, but David insisted upon paying. The altar was built on the threshing floor, in the place where Solomon built the temple.

TERRA FIRMA MISNAMED
OCCASIONAL EARTHQUAKES ARE a reminder that this earth, which seems so solid, is not solid at all. An earthquake is not abnormal because an unshaking earth would be a dead earth.

A quake is the earth's method of maintaining its equilibrium, a form of adjustment that enables the crust to yield to stresses that tend to reorganize and redistribute the material of which it is composed.

At least 9,000 earthquakes are reported in a year, or more than one every hour, and a toll of 15,000 lives is taken. So frequent are quakes that if for a century a picture of the earth could be taken every month from some point in space, and the series were projected on a screen at the rate of 12 a second, the earth would seem to be wrinkling its crust.

The wrinkling would be particularly noticeable where mountains and deep sea meet, as in California. But earthquakes are more frequent in Chile, where mountains are higher and the sea deeper.

The character who called it "terra firma" obviously was employing poetic license.

QUAKE'S AFTERMATH

THOSE WHO HAVE NEVER actually experienced the disastrous results of an earthquake cannot visualize the situation which followed the temblor which hit Bakersfield, Calif.

Large sections of the city and its environs were left in a jumble of debris. Scores of buildings were practically destroyed. Ninety classrooms are unfit for use at the beginning of the school term.

Cost of rebuilding will be enormous, with restoration of school facilities alone estimated at \$2 million. But the citizens of Bakersfield are not dismayed. Almost before the walls stopped falling work of restoration was under way.

Curiosity seekers came to Bakersfield in droves, adding to the confusion. There is something in the mental equipment of the average citizen which compels him to hasten to the scene of disaster.

Earthquakes have provided numerous examples of the American spirit at its best. Every city in the U.S. which has been hit by an earthquake has surged to new economic heights within a year after the catastrophe.

George K. Sokolsky's

These Days

In its effort to bind nations together in a covenant of human rights, the United Nations has encountered opposition in both Soviet Russia and the United States. What comes out of it is a mishmash of words that has little meaning. The drafting committee is now instructed to get out two covenants, each to have the force of a treaty, which in the United States means that once it is ratified by the United States Senate, it ipso facto becomes the law of the land.

From that standpoint, the United Nations is actually functioning as a legislative house of the United States, its findings to be referred to the Senate for rejection or confirmation. Each of these covenants is to become effective when 20 nations have ratified them but they are not to apply to nations which reject them or fail to ratify them.

The United States would be well advised to keep out of all this. We have our Constitution, our Bill of Rights, the constitutions of our several states, acts of Congress and of State Legislatures and decisions of the Supreme Court of the United States to provide all the protection for the individual's rights that are required by a free people. The covenants of the United Nations can only deprive us of liberties we now enjoy; they can add nothing to them.

The two covenants proposed are:

1. A Covenant on Civil and Political Rights;

2. A Covenant on Economic, Social and Cultural Rights.

Mrs. Roosevelt, who has represented the United States in the United Nations on such matters, states:

"Neither of the covenants as now drafted contains any provisions which depart from the American way of life in the direction of communism, socialism, syndicalism or statism. When such provisions have been proposed, the United States has opposed them; every proposal by the Soviet Union and its satellites to write 'statism' into the Covenant has been defeated. . . In its approach to the economic and social articles, as well as the civil and political articles, the U.S. delegation has been guided by our Constitution and by existing statutes and policies approved by the legislative and executive branches of the Federal Government."

If this is correct, and it has been and will continue to be proved in many respects incorrect, why should the United States be involved in this at all? In the matters, for instance, of freedom of the press and freedom of religion, the American Constitution and Supreme Court decisions upholding the Constitution are clearer, more succinct, more sure than anything in these covenants that has up to now been made public.

Among the freedoms that the United Nations Covenant offers is "freedom to leave a country." Does that apply to those suspected of espionage? Does it apply to subversives who fear the consequences of their own conduct? For instance, it is now customary for subversive motion picture people to go abroad to do their damage to America because an indignant people and an outraged industry reject them. Shall

Adolescent Health Problems

By HERMAN N. BUNDESEN, M.D.

EVERYONE who has the privilege of raising a child will have a teen-ager on his hands sooner or later, and will have to face the problems of adolescence.

It takes a special effort to understand the abilities, limitations, and health problems of the adolescent, even though every one of us once passed through the stage himself.

In adolescence, a person is betwixt and between. He is past childhood, but too young for adulthood. The adolescent is not a child, not an adult, but a young person going into adulthood.

Health Neglected

The health of an adolescent is very apt to be neglected by parents, not intentionally, but through ignorance. Most adolescents have lost the benefits of the vaccinations they had in early childhood. It is important that they be re-vaccinated and immunized against tetanus and diphtheria.

It is also necessary for these young people to learn the value of proper nutrition. There is hardly any other time of life when the body is more in need of the right food, and the young person now has it in his power to cause great and serious damage to himself through wrong eating habits.

Aene May Appear

This is also the stage when acne (pimples) of the face is very common. This condition may be due to changes in the glands of internal secretion and should have

the attention of a physician if it appears.

A large number of psychiatric disturbances occur in young people. These often follow failure in school, differences between child and parents, failure to mature properly, rebellion against discipline by elders, or antagonistic feelings toward parents. Any one of these situations or others can bring on a serious mental disorder, which is not uncommon in adolescence.

Most of these mental upsets look more serious than they actually are. A good family physician can usually straighten out the situation if he has a chance to talk with the young person and with the parents.

A young person should be encouraged to compete in athletics. More guided exercise, rather than more rest, is prescribed for the boy or girl who tires too easily because of poor physical shape. A self-centered and neurotic adult may be the result of too many adolescent restrictions.

Remember that during adolescence the adult personality is formed. It should not be looked upon as just a passing phase, but as an important stage in personality and character formation.

QUESTIONS AND ANSWERS

P. B. S.: I have heard that the eyes remain the same size from the time one is born. Is this true?
Answer: This is not absolutely true. During the first few years of life, the eyeballs grow to their normal size. However, most growth of the eyes is completed at the end of the first decade of life.

Beautiful, calculating Eve Raymond seemed always to get what she wanted. Now it was a New York divorce and a large money settlement from her husband.

CHAPTER TWO

AN HOUR after she got her check, in a hotel bedroom that was a confusion of packing, Eve lay across the bed propped on her elbows. She snapped an elastic band from a tube of newspaper clippings, smoothed them out and began going through them one by one.

There was a picture of a grave-eyed girl with fair pigtails, and the paragraph beneath it read:

Nance Ireland, in her freshman year at Thurstonia High School, has been announced the winner of the Craig Brinson medal in art. The judges, in awarding Miss Ireland the prize, predict a brilliant future for the young artist.

Eve put it aside. It curled back into a tight cylinder as she picked up the next clipping. This was a husky young man in football sweater and helmet, taking a forward pass. Jeremy Ireland, the words read, star of yesterday's intercollegiate game. It, too, snapped back into a tube as Eve discarded it.

She picked up the next, flattened it. It was Nance Ireland again, the braids now twisted into coils over her ears and held with ribbons. Thurstonia's loveliest debutante . . .

Another clipping announced the engagement of Miss Nance Ireland to Doctor Jeremy Ireland. At that one, and the final one—a picture of a middle-aged man captioned by the query, Will Sam run for mayor next year?—Eve stared the longest, speculation deepening the frown that brought her brows darkly down over her eyes. Then, smoothing them all into the original tube held by the rubber band, she dropped them into one of the half-packed bags on the floor, and went to the telephone.

"I want a train reservation," she said to the desk clerk, "for Thurstonia." She spelled it out for him. "The reservation," she added, "is to be in the name of Miss Eve Romney."

"Yes, Mrs. Raymond." She smiled. Eve Romney, she thought, amused again at recollection of the lawyer's disapproval. He might have been interested to know there was a name that almost, had been legally hers. If . . . She stopped smiling, jumped up quickly and went into the bedroom to resume her packing.

news behind the news

Editor's Note: Every Saturday this veteran Washington newspaper correspondent devotes his column to answering readers' questions of general interest on national and international policies and personalities. Questions may be sent direct to Ray Tucker at 6308 Hillcrest Place, Chevy Chase, Md.

WASHINGTON, Sept. 6—"You newspapermen give me a pain!" explodes Mrs. C. M. of Tulsa, Okla. "Ever since General Eisenhower was nominated almost two months ago, you have been writing that he was a 'flop' as a candidate, that he has not 'lived up to expectations,' and that he is a 'disappointment' to his admirers. How can you make such sweeping statements, when he has not really started to campaign?"

DISAPPOINTMENT — Answer: On behalf of newspapermen generally, may I say that they do not make the news; they simply report it. The impression they reflect in their articles derives from their daily association with General Eisenhower, the reaction of his audiences, and talks with such advisers of the nominee as Duff, Dewey, Lodge, Carlson, not to mention Ike himself.

Almost everybody who promoted Eisenhower for the nomination has registered disappointment

ment at his slow start, at his generalized observations on the most elementary issues, and on his failure to assail the recognized blunders and weaknesses of the Truman administration.

Among those criticizing his campaign behavior are most of the newspapers, columnists and political leaders who helped him to win at the Chicago convention. When they are not apologizing and making excuses, they are asking their readers, in effect, "to give the boy a chance."

Eisenhower's own explanation may be valid. As an officer and as commander of our forces in Europe, he has always been a slow starter, reserving his victorious blows for the strategic moment. There are many who agree that it is advisable for him to get in his heaviest licks in the last few weeks of the battle than in September.

QUESTIONS—Let me cite one reason for the publication of the newspaper articles and editorials against which Mrs. C. M. protests. When Senator Duff of Pennsylvania, a wise old politician and an Eisenhower fan from the start, appeared on a radio quiz team ten days ago, the questions thrown at him by the panelists were, in effect:

(1) Are you satisfied with the kind of campaign Eisenhower is making? (2) Don't you think he has lost support since his nomi-

nation? (3) When is he going to begin to fight?

INDICTMENT — Now, those questions were not original with Duff's interrogators, nor were they meant to be hostile. They were born of the fact that Ike has not fulfilled expectations that he would be a glamorous and aggressive campaigner. In general, Senator Duff conceded the truth of this indictment, adding that he had been assured by Ike that "things would be different soon." Frankly, in view of the fact that General Eisenhower was invading a field for which he had no preparation or experience, I think that his friends expected too much of him. Politics is not a game that can be learned overnight.

QUESTIONABLE — "Will you please discuss the three guards who attended Margaret Truman on her European trip?" asks Mrs. C. T. H. of Houston, Tex. "Is it necessary for a member of the President's family to be so guarded, and who bears the expense?"

Answer: There is considerable misunderstanding on this subject. The law says that the Secret Service is "authorized," at the request of the President, to protect him, his family, the President-elect and the Vice President-elect. There is no requirement that the SS accompany members of the White House family. The President must request it.

It seems quite proper that at least one guardian should accompany Margaret, although every country she visited provided extraordinary protection. But the assignment of three is questionable. It is estimated that the cost for each SS man on her trip was about \$2,000, which is paid from the public treasury.

VACANCY—"If a presidential or vice-presidential nominee should die before the election," inquires B. M. W. of Hollidaysburg, Pa., "who would take their place, and how would the vacancy be filled?"

Answer: Almost the last act of each nominating convention is to empower the national committee, in event of the death of either candidate, to name a substitute. To my recollection, it has never happened.

DEBT—"What was the national debt and how many were unemployed when Franklin D. Roosevelt became President in 1933?" asks H. H. M. of Long Beach, Cal. "At the outbreak of the war in 1939, and now?"

Answer: In 1933 the public debt was \$22,538,673,164, and the unemployed numbered about 11 million. The comparative figures for 1939 were \$40,431,532,411 and six million. Those for 1952 are approximately \$266 billion and two million, which is the normal total of the out-of-work population.

TERRA FIRMA MISNAMED
OCCASIONAL EARTHQUAKES ARE a reminder that this earth, which seems so solid, is not solid at all. An earthquake is not abnormal because an unshaking earth would be a dead earth.

A quake is the earth's method of maintaining its equilibrium, a form of adjustment that enables the crust to yield to stresses that tend to reorganize and redistribute the material of which it is composed.

At least 9,000 earthquakes are reported in a year, or more than one every hour, and a toll of 15,000 lives is taken. So frequent are quakes that if for a century a picture of the earth could be taken every month from some point in space, and the series were projected on a screen at the rate of 12 a second, the earth would seem to be wrinkling its crust.

The wrinkling would be particularly noticeable where mountains and deep sea meet, as in California. But earthquakes are more frequent in Chile, where mountains are higher and the sea deeper.

The character who called it "terra firma" obviously was employing poetic license.

QUAKE'S AFTERMATH

THOSE WHO HAVE NEVER actually experienced the disastrous results of an earthquake cannot visualize the situation which followed the temblor which hit Bakersfield, Calif.

Large sections of the city and its environs were left in a jumble of debris. Scores of buildings were practically destroyed. Ninety classrooms are unfit for use at the beginning of the school term.

Cost of rebuilding will be enormous, with restoration of school facilities alone estimated at \$2 million. But the citizens of Bakersfield are not dismayed. Almost before the walls stopped falling work of restoration was under way.

Curiosity seekers came to Bakersfield in droves, adding to the confusion. There is something in the mental equipment of the average citizen which compels him to hasten to the scene of disaster.

Earthquakes have provided numerous examples of the American spirit at its best. Every city in the U.S. which has been hit by an earthquake has surged to new economic heights within a year after the catastrophe.

These Days

In its effort to bind nations together in a covenant of human rights, the United Nations has encountered opposition in both Soviet Russia and the United States. What comes out of it is a mishmash of words that has little meaning. The drafting committee is now instructed to get out two covenants, each to have the force of a treaty, which in the United States means that once it is ratified by the United States Senate, it ipso facto becomes the law of the land.

From that standpoint, the United Nations is actually functioning as a legislative house of the United States, its findings to be referred to the Senate for rejection or confirmation. Each of these covenants is to become effective when 20 nations have ratified them but they are not to apply to nations which reject them or fail to ratify them.

The United States would be well advised to keep out of all this. "Impossible, dear," Eleanor brushed aside publishers and contracts. "With all the trousseau teas and bridal showers and everything! Doesn't Rolph know you're being married?"

Nance grimaced. "What's a wedding to Rolph, compared to getting the illustrations done in time for his newest juvenile?"

"Nothing is as important as a girl's wedding day. Tell him that!"

"I already have. It's like using your thumb to put a dint in concrete! Hattie, may I have just a sandwich and milk in the attic for lunch? I'll work right through to dinner."

(1) Are you satisfied with the kind of campaign Eisenhower is making? (2) Don't you think he has lost support since his nomination?

tion? (3) When is he going to begin to fight?

INDICTMENT — Now, those questions were not original with Duff's interrogators, nor were they meant to be hostile. They were born of the fact that Ike has not fulfilled expectations that he would be a glamorous and aggressive campaigner. In general, Senator Duff conceded the truth of this indictment, adding that he had been assured by Ike that "things would be different soon."

Frankly, in view of the fact that General Eisenhower was invading a field for which he had no preparation or experience, I think that his friends expected too much of him. Politics is not a game that can be learned overnight.

QUESTIONABLE — "Will you please discuss the three guards who attended Margaret Truman on her European trip?" asks Mrs. C. T. H. of Houston, Tex. "Is it necessary for a member of the President's family to be so guarded, and who bears the expense?"

Answer: There is considerable misunderstanding on this subject. The law says that the Secret Service is "authorized," at the request of the President, to protect him, his family, the President-elect and the Vice President-elect. There is no requirement that the SS accompany members of the White House family. The President must request it.

It seems quite proper that at least one guardian should accompany Margaret, although every country she visited provided extraordinary protection. But the assignment of three is questionable. It is estimated that the cost for each SS man on her trip was about \$2,000, which is paid from the public treasury.

VACANCY—"If a presidential or vice-presidential nominee should die before the election," inquires B. M. W. of Hollidaysburg, Pa., "who would take their place, and how would the vacancy be filled?"

Answer: Almost the last act of each nominating convention is to empower the national committee, in event of the death of either candidate, to name a substitute. To my recollection, it has never happened.

DEBT—"What was the national debt and how many were unemployed when Franklin D. Roosevelt became President in 1933?" asks H. H. M. of Long Beach, Cal. "At the outbreak of the war in 1939, and now?"

Answer: In 1933 the public debt was \$22,538,673.164, and the unemployed numbered about 11 million. The comparative figures for 1939 were \$40,431,532.411 and six million. Those for 1952 are approximately \$266 billion and two million, which is the normal total of the out-of-work population.

Try, Stop Me

The ruler of an ancient kingdom came down with a malady one day that no doctor of the time could diagnose. A wise man at the court, however, suggested that if the king were to don the shirt of the happiest man in the land, he might recover in short order. Problem: to locate the happiest man. Couriers combed the country to discover him, and finally they agreed that they had found him. Alas! When he was brought to court it was discovered that he had no shirt to his name!

There's a little village in the northern part of Ireland called Skibbereen. Its one and only movie theater, had never opened on Sundays, but the citizens, hungry for entertainment, petitioned the mayor to lift the ban. "Nothing doing," answered the mayor, silencing his critics by saying, "I'm sure nobody wants to turn our lovely little Skibbereen into another Paris, France!"

Unsolved mystery in Colorado: the new budget for the state prison includes one item of \$100—for advertising and publicity!

Vincent-Hughes Vows Are Read In New Holland

Methodist Church, New Holland, was the setting on Sunday for the wedding of Miss June Vincent, daughter of Mr. and Mrs. Theodore Vincent of near New Holland, and Richard D. Hughes, son of Mr. and Mrs. Clifford Hughes of Washington C.H.

The wedding vows were read at three o'clock in the afternoon by the Rev. F. E. Roberts of West Mansfield and the background for the wedding party was baskets of white gladioli and asters and greenery flanked with two seven branch candelabra.

Preceding the ceremony, Mrs. Jack Vincent of Columbus, Georgia, sister-in-law of the bridegroom, as soloist and Mrs. Marian Gage, organist, presented a program of nuptial music. Mrs. Vincent's songs were "I Love You Truly," "Through the Years" and "Because" and Mrs. Gage played, "Intermezzo," "Serenade," "Idylle," "Romance," "Love Song," "O Perfect Love," and the wedding marches.

The bride was attended by Mrs. Kenneth Vincent of Marion, sister-in-law of the bride as matron of honor and Norman Merritt of Washington C.H., as best man, and seating the guests were Harley Evans of Atlanta and Garrett Dill of Chillicothe.

The bride, given in marriage by her father, wore a ballerina length gown of bridal satin and nylon net fashioned with a basque bodice, puffed sleeves, high neck and a full skirt and she wore matching mitts.

Her fingertip veil of illusion was held in place with a shallow cap of lace studded with seed pearls and rhinestones and she carried a white prayer book topped with a purple throated white orchid. Her only jewelry was a single strand of pearls.

The matron of honor wore a dusty rose ballerina length gown of nylon net over taffeta which fashioned the full skirt and the strapless bodice of matching velvet was set off with a stole or net over her shoulders. She carried a bouquet of white asters centered with a huge blue tinted aster.

Mrs. Vincent chose for her daughter's wedding, an aqua tie silk dress with brown accessories and Mrs. Hughes was wearing a black ensemble. Both mothers wore deep purple orchid corsages.

A reception was held in the church parlor and included seventy-five guests and hostesses were

The new Mr. and Mrs. Hughes are on a wedding trip to Niagara Falls and Canada and upon their return will reside near Washington C.H.

The bride graduated from New Holland high school in the class of 1951 and is pianist for the Violet Chase School of the Dance.

Mr. Hughes graduated the same year at Washington C.H. high school and attended Ohio State university. He is now engaged in farming with his father.

Deercreek Garden Club Installs 1952-53 Officers

Deercreek Garden Club met in the Parish house at Williamsport Thursday evening, with twenty-one members and three guests present. The guests were: Mrs. William Bailey and son, Tony, and Miss Patricia Hamman.

During the first meeting for the new year the following officers were installed: president, Mrs. Clifford Bowser; 1st vice-president, Mrs. Aulten Carter; 2nd vice-president, Mrs. Omer Lemmings; secretary, Miss Carolyn L. Bochart and treasurer, Mrs. Fred J. Corcoran.

"Thank you" letters from Mrs. George B. Bochart and Miss Ilo Stevenson were read by the secretary. A motion was made to revise the constitution and by laws of the club. This will be done by charter members of the club with Mrs. Russell Wardell serving as chairman. The club project for the year, which is to be landscaping of the new Williamsport gymnasium, was discussed by Mrs. Estella Johnson.

Plans were made to attend the annual state meeting and convention of the Ohio Association of Garden Clubs to be held in Columbus, Sept. 10 and 11. Delegates will be Mrs. Bertha Porter, Mrs. Theodore Corcoran and Mrs. L. Smith Hulse; alternates, Mrs. Walter Wright, Mrs. Estella Johnson and Mrs. Fred J. Corcoran.

The group decided to hold a 11 meetings in the parish house. The meetings are to be the first Thursday of each month at 8 p. m.

For an added attraction this year, Mrs. Bertha Porter outlined a copset. There will be two sides. The name of each garden club member was placed in a box and then drawn by Mrs. Porter and Mrs. Walter Wright who were chosen as captains: Mrs. Porter will represent the blue side and Mrs. Wright will represent the red side. The members are asked to bring a flower arrangement to each meeting and these will count as points. At the close of the contest, which will be at the end of the garden club year, the losing side will entertain the winning side.

Mrs. Walter Wright was program leader for the evening. Miss Bertha Jones gave a discussion on "September Pointers." Mrs. Wright discussed "Miniatures," which pertained to flower arrangements.

A miniature flower show was ar-

IT TAKES \$16,900 . . .

The switchboard this telephone operator is holding in her hand does not cost \$16,900. It costs \$6,000. But the switchboard without other equipment would be of little use.

To give service this switchboard position needs other equipment such as repeaters, cable, conduit, switches, poles, etc. The total cost of this auxiliary equipment, divided by the total number of employees, equals \$10,900 of investment per employee. Add this to the cost of the switchboard (\$6,000) and you get \$16,900. That's why we say "It Takes \$16,900."

This is just another example of the fact that it takes money — and lots of it — to provide telephone service. And costs are still going up!

Mulloy Sends Yankee Into Tennis Finals

FOREST HILLS, N. Y., Sept. 6.—Thanks to Gardner Mulloy's tenacity and his vitamin pills, there'll be an Australian-American final for the United States Men's Singles Tennis Championship tomorrow instead of an Australian monopoly.

There may be a "commercial" involved in giving credit to the pills. Mulloy sells them—and he also gulped a few during the rest periods in Friday's grueling match against flashy young Ken Rosewall of Australia. And he said they're what enable him to keep playing five-set matches at the age of 38.

There's no doubt about the tenacity, because that and the sagacity Mulloy has acquired in 20 years of competitive tennis were what carried him to a 6-4, 3-6, 4-6, 7-5, 7-5, victory over the 17-year-old Australian sensation.

Whatever the reason, Mulloy will meet either 19-year-old Ham Richardson of Baton Rouge, La., or ninth-seeded Straight Clark of Pasadena, Calif., in one semifinal match. These two were stopped by darkness Friday after playing 60 games and winding up with two sets apiece. They'll finish Saturday.

The other semifinal will bring together two of Australia's top ranking stars, defending Champion Frank Sedgman and third-ranked Mervyn Rose.

Butt Combine Posts 3-2 Win In Tourney Test

Circleville's J. H. Butt softball team advanced in a Columbus tournament Friday night with a narrow 3-2, extra-inning victory.

The Butt team collected the victory over the Ann Ton's in the top of the eighth following a 2-2 deadlock from the fifth inning.

The Ann Ton's opened scoring in the contest with a brace of runs against Pitcher Kenny Reid in the fourth.

Butt swatters retaliated in the fifth, however, when Red Wilson singled, Harold Stonerock doubled and Wilson scored when Stillman Morrison grounded to short. Stonerock tallied the tying run next on an error at first base.

IN THE EIGHTH, after Morrison replaced Reid on the mound in the seventh, Abe Rihl singled, Dick Wellington walked and "Snow" Seymour knocked in the winning run with a single to right with two away.

Morrison in relief was credited with the win, taking over in the seventh with runners on second and third and none out. The first batter popped out to third and Morrison fanned the next two men. He also fanned all three batsmen in the last of the eighth.

Line score of the Butt victory follows:

J. H. Butt . . . 000 020 1 — 3 7 2
Ann Ton's . . . 000 200 0 — 2 4 2

1952 Bowling Season To Begin Here Monday; 4 Leagues Ready

Bowling will resume its role as Circleville's top Fall and Winter recreation here Monday when the first of four leagues swing into action at the Moose alleys.

Two men's leagues, a women's league and an Elks Lodge league will take up four nights of every week for the next 30 or 35 weeks here.

And a move is underway now to set up another league in conjunction with the Elks loop.

A 6-team men's league will open the 1952 ten-pin season here at 7:30 p. m. Monday.

Another 12 teams will begin action Tuesday in the women's league, 12 more on Wednesday in a men's league and six more on Thursday in the Elk's league.

Another team is needed for bowling on Thursday nights to compete with three Container teams and give the Circleville Bowling Association its fifth league.

OFFICERS elected to head the Circleville Association this year are Bob Elsea, president; Bob Shaw, vice-president; and Kirk Cupp, secretary.

Officers of the individual leagues are:

Mulloy Sends Yankee Into Tennis Finals

FOREST HILLS, N. Y., Sept. 6.—Thanks to Gardner Mulloy's tenacity and his vitamin pills, there'll be an Australian-American final for the United States Men's Singles Tennis Championship tomorrow instead of an Australian monopoly.

There may be a "commercial" involved in giving credit to the pills. Mulloy sells them—and he also gulped a few during the rest periods in Friday's grueling match against flashy young Ken Rosewall of Australia. And he said they're what enable him to keep playing five-set matches at the age of 38.

There's no doubt about the tenacity, because that and the sagacity Mulloy has acquired in 20 years of competitive tennis were what carried him to a 6-4, 3-6, 4-6, 7-5, victory over the 17-year-old Australian sensation.

Whatever the reason, Mulloy will meet either 19-year-old Ham Richardson of Baton Rouge, La., or ninth-seeded Straight Clark of Pasadena, Calif., in one semifinal match. These two were stopped by darkness Friday after playing 60 games and winding up with two sets apiece. They'll finish Saturday.

The other semifinal will bring together two of Australia's top ranking stars, defending champion Frank Sedgman and third-ranked Mervyn Rose.

Butt Combine Posts 3-2 Win In Tourney Test

Circleville's J. H. Butt softball team advanced in a Columbus tournament Friday night with a narrow 3-2, extra-inning victory.

The Butt team collected the victory over the Ann Ton's in the top of the eighth following a 2-2 deadlock from the fifth inning.

The Ann Ton's opened scoring in the contest with a brace of runs against Pitcher Kenny Reid in the fourth.

Butt swatted retaliated in the fifth, however, when Red Wilson singled. Harold Stonercock doubled and Wilson scored when Stillman Morrison grounded to short. Stonercock tallied the tying run next on an error at first base.

IN THE EIGHTH, after Morrison replaced Reid on the mound in the seventh, Abe Rihl singled, Dick Wellington walked and "Snow" Seymour knocked in the winning run with a single to right with two away.

Morrison in relief was credited with the win, taking over in the seventh with runners on second and third and none out. The first batter popped out to third and Morrison fanned the next two men. He also fanned all three batsmen in the last of the eighth.

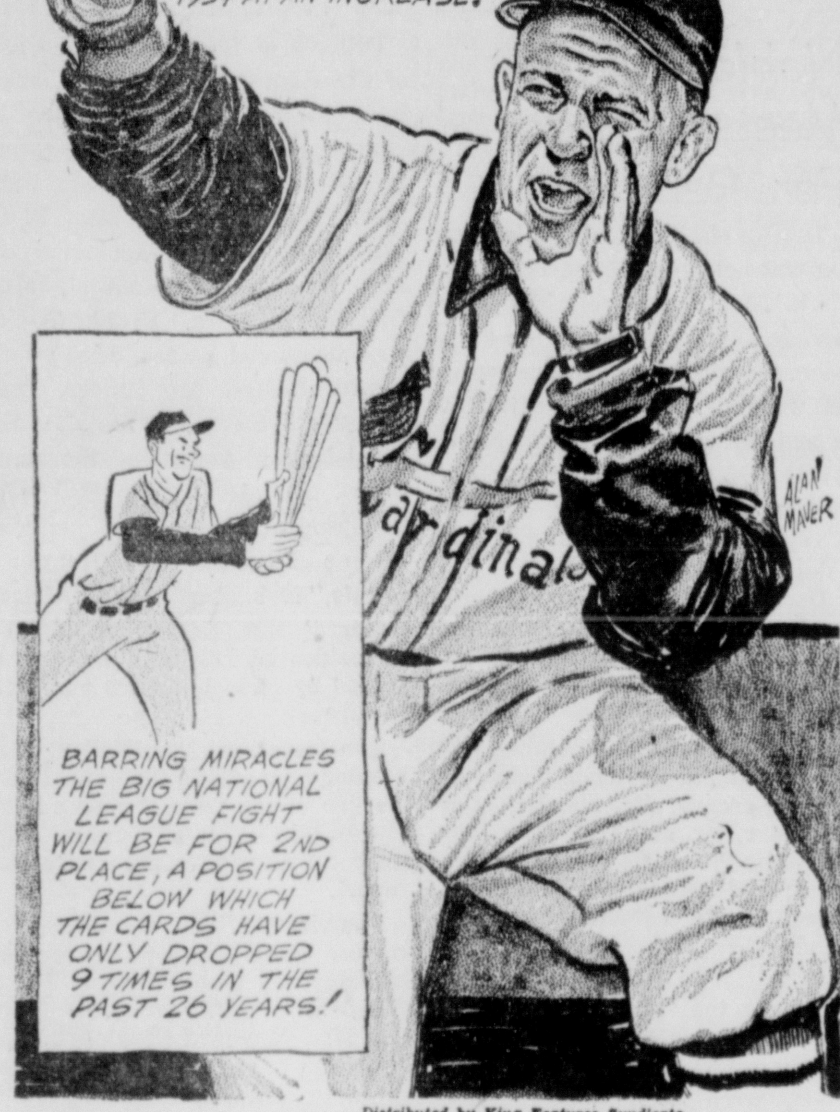

Line score of the Butt victory follows:
J. H. Butt .. 000 020 1 — 3 7 2
Ann Ton's .. 000 200 0 — 2 4 2

1952 Bowling Season To Begin Here Monday; 4 Leagues Ready

Bowling will resume its role as Circleville's top Fall and Winter recreation here Monday when the first of four leagues swing into action at the Moose alleys.

Two men's leagues, a women's league and an Elks Lodge league will take up four nights of every week for the next 30 or 35 weeks here.

And a move is underway now to set up another league in conjunction with the Elks lodge.

A 6-team men's league will open the 1952 ten-pin season here at 7:30 p. m. Monday.

Another 12 teams will begin action Tuesday in the women's league, 12 more on Wednesday in a men's league and six more on Thursday in the Elk's league.

Another team is needed for bowling on Thursday nights to compete with three Container teams and give the Circleville Bowling Association its fifth league.

OFFICERS elected to head the Circleville Association this year are Bob Elsea, president; Bob Shaw, vice-president; and Kirk Cupp, secretary.

Officers of the individual leagues are:

Bowling operations were halted abruptly in mid-season here last year when the leagues voted to discontinue because of poor pins.

Redlegs Hoping To Oust Bruins

CHICAGO, Sept. 6.—The Cincinnati Reds, clinging to sixth place by one bare percentage point, are looking longingly at the fifth spot held by Chicago.

Here for a two-game series with the Cubs, the Reds trail the Chicagoans by six games. Rogers Hornsby plans on using right hander Bud Podbielan (1-4) in Saturday's opener against Chicago's Johnny Klippstein (9-10). Following the two games with Chicago, the Rhinelanders head for Boston.

Bad Pitch Nets Tribe Victory
CLEVELAND, Sept. 6.—"I had to hit a bad pitch to do it," Luke Easter said while discussing a blow for which he had waited three years.

The homer, with two aboard, was the first he had ever clouted off the pitching of Chicago's Billy Pierce. And the time almost made the wait worth while. It produced all the runs Friday night as Cleveland trimmed the White Sox, 3-0, and moved to within 2½ games of first place New York.

I intend to discuss, from time to time, various phases of these covinants. Here, I wish to limit myself to paragraph 3 of Part I which reads:

"The right of the peoples to self-determination shall also include permanent sovereignty over their natural wealth and resources. In no case may a people be deprived of its own means of subsistence on the grounds of any rights that may be claimed by other States."

What happens to contractual relations under this provision? American business firms have invested billions of dollars of the money of the American people in many parts of the world. This American money, privately owned, has gone into the development of the resources of countries like Saudi Arabia, Chile, Brazil, etc. The contracts were signed in good faith and the money has been employed in the interest of both parties to it.

Suppose such investments, having been duly developed, the machinery required manufactured and installed, the best engineering skill employed—and then, when everything is running ship-shape, the beneficiary expropriates the property on the grounds of paragraph 3 or Part I of this Covenant?

Actually, without a justifiable excuse, this happened to American oil properties in Mexico. Is it to happen to our investments in the world over?

Is not this provision a stimulation and encouragement to thievery?

Jesse Would Have To Sharpen Technique To Match Hijackers

By HAL BOYLE

NEW YORK.—Jesse James was born in the wrong century. He wasted his criminal talents holding up banks, ambushing trains. And he died young himself, a victim of the crude instrument by which he lived—a pistol.

Today Jesse James would have to sharpen his technique considerably to survive in a crime field that has become a big business—truck cargo thefts.

Looting the heavily-laden behemoths of the highways is now a highly lucrative industry for well-organized gangs who operate with the timed precision of a professional football team making a touchdown play.

The rewards are high. Single trucks have yielded \$100,000 in furs, \$50,000 in liquor, \$40,000 in cigarettes, or—as in one case—\$30,000 worth of brassiers.

Truck hijacking has become so

widespread that losses rose from \$22 million in 1945 to \$65 million in 1951, and some insurance experts fear the toll this year may reach \$75 million.

Here is the kind of cargo these criminal specialists go for, as measured by losses last year: Clothing, food, textiles, tobacco, furs, liquor, metals, television sets, money and furniture.

"All it requires to steal a 20-ton truck is nerve," says Jack Seide, 42, head of Babaco Alarm Systems, a pioneer in truck cargo protection.

"Contrary to the public's idea," he said, "most truck hijackings don't occur on lonely stretches of the open road at gunpoint."

"Ninety-nine per cent are pulled off in a metropolitan area. They are usually thefts from unattended vehicles. Gunplay is

very rare, because it is unnecessary."

Some gangs set up their jobs with inside help from trucking firm employees, whom Seide feels aren't carefully checked for past criminal records. Some gangs loot unguarded trucks on the spot, others drive them away and empty the contents at their leisure, then abandon the vehicles.

Seide has made vehicle protection his career. It took him five lean years of hunger to interest trucking companies and insurance writers in his inventions.

Today he leases his alarm systems to firms operating more than 8,000 trucks, has 200 agencies from coast-to-coast, boasts that no truck protected by one of his alarms has ever been hijacked.

Disease, Feed Tips For Chicken Growers Are Listed

Bronchitis Cracked By New Method

High-Powered Hen Feed Developed For More Eggs

To combat bronchitis, poultrymen in parts of Wisconsin and Illinois are artificially infecting pullets on range by inoculating a few birds in the flock with the disease virus.

From the inoculated birds, the disease spreads to the entire flock. They recover from the infection in a few days and are then immune for life.

Remember two important points: 1. Don't take a pullet from an infected neighboring flock to spread the disease in your flock. You don't know what other diseases you may bring on the place. 2. Artificial infection should be used only on range birds.

Specialists say if the flock is in production, the only recommendation is that the grower practice the strictest sanitation.

As to the reaction of the pullets on range following the artificial infection, the experts report "In sunny, warm weather they are not much affected. However, in cold, rainy weather they are apt to be mighty sick birds."

THE DISEASE is spread by an air-borne virus. Incubation period is two to four days. Symptoms are much the same as Newcastle.

However, birds don't go out of production as quickly as with Newcastle. Authorities generally agree you are better off to sell the hens if bronchitis hits a laying flock. They rarely come back into profitable production, and the eggs they do lay are of such low quality that they will grade low B or C.

Virus inoculation is not recommended for broiler growers. Sanitation is their best bet. Beware of used feed sacks, crates, and other equipment. Stay from other poultry farms and keep other poultrymen away from your flock. Do not carry over built-up litter.

Meanwhile, high-powered hen feed is on the way. Research workers have mixed test rations with less fiber and more energy which produce more eggs at lower cost.

Although ingredients for the new rations cost more, less feed is needed to make a dozen eggs.

Rollin H. Thayer developed a special formula for the annual egg laying contest at Oklahoma A and M College. New high production records were made when the new feed was used.

Thayer raised the yellow corn content from 36 to 64 percent, soybean meal from five to 12 percent. Wheat bran and pulverized barley were eliminated, wheat shorts were reduced from 20 to 10 percent and alfalfa leaf meal was cut from 10 to 5 percent. To this more potent feed he added B12 and larger amounts of the B complex vitamins niacin, choline chloride and riboflavin.

Texas experiments with a pepped-up ration indicate you can get an extra 116 dozen eggs from each ton of feed. The old mixture

had 15 percent oats, 15 percent gray shorts and 5 percent alfalfa meal. Workers removed all three, raised the ground milo content from 13 to 42 percent and jumped soybean meal from seven to 12 percent. Then they added 0.25 to 1 percent cod-liver oil to supply the vitamin A the hens had been getting from the alfalfa and added 0.5 to 1 percent of bonemeal to bring minerals up to previous levels.

The new ration jumped production 21 percent and improved feed efficiency by 30 percent. With the old formula, the Texas workers could produce 230 eggs with a 100-pound sack of feed. The new feed gave them 300 eggs a sack, which reduced costs approximately 1 1/2 cents a dozen.

Jap Emperor Again Devine?

TOKYO—A school in Akita, Northern Japan, recently asked for and received a portrait of Emperor Hirohito, something Japanese schools have not had since the war.

The school placed the imperial photograph in a place of honor in a special alcove. This prompted a writer for Asahi Shimbun to wonder in print if emperor worship was being revived.

Before the war, it was compulsory for schools to have a picture of the emperor in a place of honor. School opened with a bow to the imperial picture. After the war, when the emperor renounced his "divinity," the practice was dropped and the pictures came down.

Parents Jailed As Baby Starves

MARION, Sept. 6—Parents of a six-month-old girl who a coroner said died of malnutrition were in jail Friday after they pleaded innocent to a charge of child neglect.

Sarah and Merton Watson of Marion, parents of six other children, were arrested after Coroner E. H. Morgan said their daughter, Barbara Elaine, died from malnutrition. Barbara's twin, Robert, was in a Marion hospital, also suffering from lack of proper food.

Japan Buys Malayan Iron

SINGAPORE—Two Japanese steel concerns have concluded a deal for the shipment of one million tons of Malayan iron ore within one year.

The Eastern Mining Company's Bukit Besi mine produced 438,000 tons of iron ore in 1950.

State's 'Healthiest' Boy And Girl Stress Better Community Health

Records of Ohio's 4-H champions in health improvement today revealed that the 1952 winners stressed better community, as well as personal health.

Judges were impressed by the wide range of community activities of the two winners, Charles W. Brown, 16, of Circleville, and Jean Boetticher, 17, of Adena.

They were selected from a field of 27 boy and 35 girl contestants.

Miss Boetticher, daughter of Mr. and Mrs. L. I. Boetticher, was described by the judges as a "one-girl county health department."

Commenting on Brown, one judge said, "I've never talked with a youngster who knows so much about the causes and ways of controlling brucellosis in livestock."

MISS BOETTICHER submitted as part of her qualifications a scrapbook which described activities of herself and her 4-H club, the Carnation 4-H Club of Jefferson County. She is junior leader of the club.

Included in her health improvement activities this year were demonstrations on civil defense, work on a community clean-up day and health fund raising campaigns. She wrote a health play and painted and put a new trash can on the village square. She also is in charge of a town survey to recruit blood donors.

Young Brown is the son of Mr. and Mrs. John W. Brown. He will be a senior in high school this year and plans to major in veterinary medicine in Ohio State university.

Brown's health record is an all-round campaign, beginning with the wearing of braces to straighten his teeth. He has studied about brucellosis and its effects on animals and humans and how

to control it. Besides practicing brucellosis control at home, he has given many county talks and demonstrations on the subject.

Brown also has participated in other community health projects, such as testing of water, encouraging drilling of deeper wells and cleaning up fire and safety hazards.

Runners-up in the two contests were: Charlotte Dockum, 16, daughter of Mr. and Mrs. C. R. Dockum of near Hamilton; and Eugene Bernath, 19, son of Mr. and Mrs. Donald J. Bernath of near Wauseon.

Contest judges were Dr. Harry Wain, health commissioner for Mansfield and Richland County; Helen Massengale, assistant chief of health education in Ohio Department of Health; Ruth Pendry, home demonstration agent, Columbiana County; and Lloyd Lutz, county agent, Shelby County.

Vets Warned Of Delay In Combat Pay

Veterans who served in Korean combat since June 1, 1950, will receive retroactive pay at the rate of \$45 per month under terms of a new law.

Pickaway County Service Officer James P. Shea Saturday emphasized, however, that veterans in the county should be prepared to wait a considerable time before the checks come through the mail.

Various branches of service have yet to set up a procedure for the payments, he explained.

The combat pay will go to veterans who served in a combat unit for six days or more during any month after May 31, 1950.

Regulations outlining the payments said they will go "to all members of a unit of regimental size or smaller which was in actual physical contact with the enemy and under hostile ground fire" for the period stipulated.

The pay will also go to troops

attached to units of battalion size or smaller when such attached units were physically with and serving his unit under specific orders."

American residents of Tangier, the international zone in North Africa, are governed by U.S. laws, although other residents of the area are subject to other laws.

CLARENCE W. WOLF
Believing that people still like so-called "old fashioned" personal service and hometown courtesy when they shop for food items, Mr. Clarence W. Wolf, owner of Clarence W. Wolf Market has continued his store service along that line ever since it was started back in 1916 . . . before World War I. Naturally the fixtures and serving methods have been improved and equipment is modern and prices competitive, but Mr. Wolf still believes in personal service, deliveries and friendly courtesy to all customers. Mr. Wolf is a native of Fairfield, O., and has lived in Circleville since 1898. His store is one of the leading independent stores of the area and is the oldest food store in Circleville. Mr. Wolf was educated in the public schools here and attended old Everetts high school. He married Miss Lula M. Dumm and they have two daughters, Mrs. Luther Bower and Mrs. Edward Phebus, both of this city. The family is Lutheran and Mr. Wolf is a deacon and a member of the Lutheran Brotherhood. He is also a member of the Elks club, Knights of Pythias and his favorite sports are fishing and horse racing. Raising show ponies and training them is his hobby, and he owned the sire of "G. I. Joe", 1950 National Winner, which sold for \$19,000 in Chicago. Mr. Wolf has served two terms on the City Council. Clarence W. Wolf Market carries a complete line of staple and fancy groceries, fresh meats (cut the way you want them), fresh fruits, vegetables and all the better packaged and canned goods including famous Premier, Winor's and Esmeralda fine canned goods and Bird's Eye frozen foods—also carry-out Beer. The store is conveniently located at 126 W. Main and the telephone number is 255. Phone orders will be carefully selected and delivered. Store hours are from 8 to 6 five days a week and from 8 a. m. to 10 p. m. on Saturdays. Mr. Wolf is assisted in the operation of the store by Mr. Luther Bower, manager.

CLARENCE W. WOLF

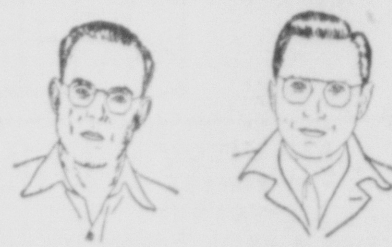

Believing that people still like so-called "old fashioned" personal service and hometown courtesy when they shop for food items, Mr. Clarence W. Wolf, owner of Clarence W. Wolf Market has continued his store service along that line ever since it was started back in 1916. . . . before World War I. Naturally the fixtures and serving methods have been improved and equipment is modern and prices competitive, but Mr. Wolf still believes in personal service, deliveries and friendly courtesy to all customers. Mr. Wolf is a native of Fairfield, O., and has lived in Circleville since 1898. His store is one of the leading independent stores of the area and is the oldest food store in Circleville. Mr. Wolf was educated in the public schools here and attended old Everetts high school. He married Miss Lula M. Dumm and they have two daughters, Mrs. Luther Bower and Mrs. Edward Phebus, both of this city. The family is Lutheran and Mr. Wolf is a deacon and a member of the Lutheran Brotherhood. He is also a member of the Elks club, Knights of Pythias and his favorite sports are fishing and horse racing. Raising show ponies and training them is his hobby and he owned the sire of "G. I. Joe", 1950 National Winner, which sold for \$19,000 in Chicago. Mr. Wolf has served two terms on the City Council. Clarence W. Wolf Market carries a complete line of staple and fancy groceries, fresh meats (cut the way you want them), fresh fruits, vegetables and all the better packaged and canned goods including famous Premier, Winor's and Esmeralda fine canned goods and Bird's Eye frozen foods—also carry-out Beer. The store is conveniently located at 126 W. Main and the telephone number is 255. Phone orders will be carefully selected and delivered. Store hours are from 8 to 6 five days a week and from 8 a. m. to 10 p. m. on Saturdays. Mr. Wolf is assisted in the operation of the store by Mr. Luther Bower, manager.
